1. The primary condition is, the customer should have a minimum equity of $1000 (without credit) on his account to request for VPS service.

2. Once a request is placed meeting the above condition, the processing time for us to provide VPS hosting for that customer will be 2-3 business days.

3. He should trade a minimum of 10 Std lots and should also maintain a minimum equity of $1000 (without credit) round turn a month to renew this service. (for Crude Oil, 10 Std lots will be considered as 1 Std lot)

4. There are no charges applied for VPS service, if the above conditions are met, else the service will be deactivated on the time of renewal.

5. The VPS will run on Windows Operating System. (Information about the OS version will be informed as soon as possible)

Do's:
Customers can install and run their Expert Advisors, Indicators and scripts on the LeoPrime MT4 terminal which will be pre-installed on their server.

Don'ts:
No other software applications should be installed on the VPS except LeoPrime MT4 Terminal. If not, the service will be deactivated.
